## 7 interesting facts

---

### Small country with big ambitions

1

Luxembourg may be **200 times smaller than France** (2,586.4 km<sup>2</sup>), for example, but it has the capacity to receive **more than 200,000 Belgian, French and German border workers** every day, i.e. **almost a third more of the population** and almost half of the workers!

### The 2 Luxembourg flags

2

**One is the world version.** It is tricoloured and will probably remind you of the Dutch flag. The difference? The sky blue band is lighter than the Dutch “overseas” blue. **The other civil version** represents a red lion on 10 white and sky blue horizontal lines. It is also the maritime flag of Luxembourg!

### Luxembourgish

3

**It is not a dialect, but one of the three official languages of the country along with German and French.** It is also the language in which His Royal Highness the Grand Duke speaks in his public speeches.

## Schengen

4

When you hear Schengen, you think of the agreement on free movement between European countries. However, the reason it bears this name is that it was signed in **Schengen, a municipality located at the junction between Luxembourg, Germany and France**. You will also find Luxembourg Crémant here, perfect for an aperitif along the river banks of the Moselle.

## What about the Benelux countries?

5

The Belgian-Dutch-Luxembourg cooperation celebrated its **60<sup>th</sup> anniversary in 2018**. It is considered **a micro-laboratory** by the EU, particularly in relation to its investments and advances in terms of greener electric mobility.

## Professional cycling

6

**Luxembourg literally excels in professional cycling**. It is also the sport the most practised by the inhabitants. This may explain (one way or the other) the **network of cycle paths of more than 600 km** that cross the country.

## Ardenne or Ardennes?

7

**The Ardennes** is a wooded area straddling Germany, France, Belgium and Luxembourg. The **Luxembourg Ardennes** in the north of the country are referred to as **Éislek** or **Oesling**.

# Housing and living in Luxembourg

# Finding accommodation in Luxembourg

Renting or buying in Luxembourg is relatively expensive because demand exceeds supply. To find suitable accommodation, we advise planning ahead, it can take time.

The leading real estate websites are [athome.lu](http://athome.lu) and [immotop.lu](http://immotop.lu). Most of the available properties are located there.

In addition, there are an increasing number of **relocation agencies**. If you are short on time and have the budget, you will appreciate it. Some agencies go as far as doing your paperwork, filling your fridge and booking the nursery or school.

There is also a plan C, less expensive if you are alone: coliving. This type of housing is very fashionable in Luxembourg. This is a more advanced form of shared accommodation. The most interested are expats, who find a good compromise while they look for their own accommodation.

## Buying

**How much does it cost?**

The infographic features a central light blue circle with a dark blue speech bubble at the top containing the text 'How much does it cost?'. Inside the circle, there are two columns of information. The left column is for 'HOUSE' and the right for 'APARTMENT'. Each column includes an icon (a house and a building), a total price, and a price per square meter. To the left of the circle, there is a separate icon of a house and a Euro symbol with the text 'Property tax is quite low and costs less than €100 per year'. To the right, there is an icon of a house with a Euro symbol above it and the text 'The interest on your mortgage is tax deductible'. Below that, a large '7%' is shown with 'Stamp duty' underneath. At the bottom of the circle, a white box contains the text 'Average purchase price in 2022' and a source URL.

Property Type	Total Price (€)	Price per m <sup>2</sup> (€)
House	€1,144,552	€6,170/m <sup>2</sup>
Apartment	€694,875	€8,513/m <sup>2</sup>

Foyer offers life insurance or Remaining Balance Temporary Insurance (TSRD), to cover your mortgage under the best conditions.

# Working in Luxembourg

# Do you need to speak Luxembourgish to work in Luxembourg?

Not necessarily. For the time being, anyway. Later, if you make the effort to learn it, it will help you a lot and open up new doors.

There are many professional environments where Luxembourgish is not necessary, where French or English is preferred.

In the long run, you will benefit greatly by addressing the nationals in their native language. You will make new connections and possibly accelerate your career.

Luxembourg obviously encourages the learning of Luxembourgish. Many municipalities even organise free courses to promote integration. Schwätze mer Lëtzebuergesch!\*

## Tax withholding slip (tax card)

# Healthcare in Luxembourg

# How does the healthcare system in Luxembourg work?

Don't worry, it's very good and quite simple. It is even one of the best in the world, ranked 10<sup>th</sup>/195 according to some studies.

Health insurance and long-term care insurance are compulsory, and you contribute to them through your salary. The organisation at the heart of the system, and which is responsible for reimbursements, is the **CNS** (National Health Insurance Fund).

When you arrive in Luxembourg, your employer is responsible for registering you. You can then insure your family members in order to benefit from medical care in Luxembourg.

The rate of reimbursement for consultations in doctors' surgeries and outpatient treatment in hospitals is generally 88% of the fixed prices for adults and 100% for children and young people under the age of 18.

## Your social security card

**Always carry your social security card with you.** It will be your key to benefit from the third party payment in pharmacies or hospitals.

Your employer registers you with the CNS, normally you do not have to do anything. To register your family, however, you will need to provide information to the CNS. They will then be co-insured free of charge.

✓ If you are not employed, but self-employed, your social security organisation will be the **Centre Commun de la Sécurité Sociale (CCSS)**.

## Coinsurance

For your spouse and children

As a resident worker, you can add your spouse and children to your health insurance. **It's free!** Contact the CNS to update your file.

## Providers approved by the CNS

Except in emergencies, the patient is free to choose his or her provider.

Hospitals

Doctors

Dentists

Psychotherapists

Pharmacies

Healthcare  
professionals in  
private practice

## Price of services

Some doctors prefer to charge an additional fee. These charges are not covered by the CNS. Others take care of their patients according to social security conditions and rates\*. The patient pays the doctor directly and then claims reimbursement from the health insurance company.

- **General Practitioner:** €56.30
- **Gynaecologist:** €40.80
- **Paediatrician:** €61.60
- **Dentist:** €38.40 (\*)
- **Dermatologist:** €57.60
- **Ophthalmologist:** €54.20

## A must have: Supplementary health insurance

Extended insurance is added to the CNS for wider cover and to obtain better reimbursements. 75% of Luxembourgers purchase it.

Foyer offers 2 products depending on your needs: medicis hospi+ and medicis confort.

Public transport systems are punctual and always available. Moreover, it's free!  
A world first!

Using the bus, train or tram will save you time when crossing or reaching Luxembourg City. On weekdays, 200,000 commuters travel back and forth daily, creating traffic jams worthy of Europe's 5<sup>th</sup> largest financial centre.

## Getting around by bike

There is a very dense (and very nice) cycling network in the whole country, but on top of that, Luxembourg City has a very good cycling infrastructure:

- **The self-service bicycles vel'OH!** are available in annual, occasional and business subscriptions.
- **Bikes can be rented** via the association Vélo en Ville.
- **MBox bike parks** provide secure parking for two-wheelers (also in other major towns in Luxembourg).
- **Taking your bike on the train is free!**

## Electric vehicles

To encourage the ecological transition, Luxembourg offers subsidies for the purchase of green vehicles:

- **Up to €8,000** for a 100% electric or hydrogen car or van

✓ *To obtain one of these bonuses, all you have to do is be a resident and apply to the environmental office:*

## Mam Vëlo op d'Schaff oder an d'Schoul

By entering this national competition\*, which invites you to cycle to work or school between May and July, you can win all sorts of **gift vouchers from €500 to €1,500**.

Foyer is counting on you!

## Registering your foreign vehicle

When you arrive, you have 6 months to register your vehicle. How to do it?

1. Submit your vehicle for a **roadworthiness inspection**
2. Apply for a **vehicle registration** online:

3. When you receive your number, you must complete a form called **Application for a vehicle registration certificate**
4. Pay the **"chancery duty"** (€50)
5. **Clear your vehicle through customs** (the correct document is called vignette 705 and can be obtained via Luxembourg customs)
6. Lastly, the whole file must be sent to the **SNCA** (Société Nationale de Circulation Automobile)

## Points-based licence and highway code

The Luxembourg licence is a points-based licence. As in France and Spain, **the initial number of points is 12 points**. Each offence causes you to lose a certain number. **At 0 points, your licence is suspended for 1 year**. In order to regain the right to drive, you will have to pass at least an awareness course.

- Phoning and driving: **- 2 points**
- Speeding: **- 2 to - 6 points**

# Family & childhood in Luxembourg

# Is Luxembourg a good place to raise your children?

The Grand-Duchy of Luxembourg is the second best country in Europe for raising children.\* It is first in health and safety.

Indeed, the level of physical exercise, air quality and general happiness index are at the top.

However, that is not all : the education system favours language learning, the countryside is conducive to outdoor sports, in short, children have every chance of becoming strong and clever.

Lastly, as an employee in Luxembourg, you can benefit from numerous aids and the parental leave system is one of the most envied in the world.

(\*) NimbleFins study published in 2019. NimbleFins is an independent UK data analysis site.

## Is your marriage recognised?

Yes, but it is not automatic. To make sure everything is in order, **register your union**.

If you are married, contact the **Civil Status Officer** of your municipality of residence. If you are in a civil partnership, consult the Public Prosecutor's Office.

By doing so, you give a legal framework to your union on Luxembourg soil. This gives you **guarantees in terms of inheritance, social security and the parentage of children**.

You will also benefit from the advantages of **joint taxation** and the **tax deductions** that come with it.

## Becoming a parent in Luxembourg

Luxembourg offers a very good system of support for parenthood: leave, allowances, protection for pregnant women against dismissal, etc.

### **The 2 types of childbirth leave:**

- The mother is entitled to **8 weeks** maternity leave **before the birth and 12 weeks after the birth**
- The father benefits from **10 days** of paternity leave.

## Parental leave

Luxembourg finances a **generous amount of leave** that you can take more or less freely during your child's first 6 years.

Its huge advantage (besides the guaranteed replacement income) is the way you can decide to use it:

FULL TIME

PART-TIME

SPLIT OVER  
A MAXIMUM  
PERIOD OF 20 MONTHS

PER WEEK FOR A  
MAXIMUM PERIOD OF 20  
MONTHS

## The various family allowances

**CAE**: remember this acronym. This is the **Children's Future Fund**, which is the reference body in terms of family allowances.

### Family allowance

Your child is entitled to it from birth to age 18.

- Basic monthly amount of **€292.54**
- **+€22.11** for children over 6 years old
- **+€55.19** for children over 12 years old

### Back-to-school allowance

Your child is entitled to it until his or her last year of high school.

- **€115** from 6 years old
- **€235** from 12 years old

## Birth allowances

This bonus totalling **€1,740.09** is available to resident mothers, but also to cross-border workers. It must be claimed and you get it back in three instalments:

- **€580.03** prenatal allowance
- **€580.03** birth allowance
- **€580.03** postnatal allowance

## Childcare

### Education and Reception Services (SEA)

- **The crèche** is the most used service to take care of your children from 3 months. The language used in most crèches is Luxembourgish and French.
  - **Approved crèches** have limited places and the enrolment criteria depend on the socio-familial context (single-parent family, special needs, etc.).
  - Some **private crèches** offer specific teaching (Reggio, Montessori, Steiner-Waldorf, etc.) and others are part of an international and multilingual education.
- The **day care centres** welcome your children between 3 and 12 years old outside school hours, including during the holidays. They offer educational activities as well as meals.
- **Childcare centres** function like the day care centres except that they are municipal structures.

## The parental assistant

The parental assistant is a more flexible alternative to crèches and day care centres. They are generally independent and **approved by the Ministry of Education**. They will look after your children at their own homes, **according to the schedule you have decided together**.

## Nannies, babysitters and governesses

Nannies, babysitters and governesses must be declared to the Centre Commun de la Sécurité Sociale in order to work in your home. To find them, simply consult the directories provided by your municipality of residence.

## The Welcome Service Cheque (CSA)

The CSA is a financial aid from the State for the extracurricular care of children up to the age of 12. In other words, it creates a system of free and discounted childcare hours.

To benefit from this, remember to apply for your "myCard fir staark Kanner" ("for strong children") card:

Here you will find the official directory of educational and childcare facilities in Luxembourg:

## Savings and taxes

Childcare expenses fall under the category of “extraordinary expenses”.

You can deduct them from your taxes in the form of a flat rate allowance of a maximum of €450 per month and €5,400 per year.

## Deductible expenses

# Internet, TV and telephone in Luxembourg

# How to set up the Internet in Luxembourg?

The Internet connection is one of the most important elements of any new move.

Fortunately, it is very easy to connect to broadband in Luxembourg. Normally it operates at a good level of high speed since optic fibre (which replaces ADSL) is present almost everywhere.

In general, providers offer an installation service that is sometimes costly, but often free of charge with the subscription to an Internet + mobile + TV bundle.

If you are visiting for less than a year, this type of offer will not be the most interesting, as it is based on a 12 to 24 month commitment period. To avoid termination fees, you can turn to a 4G router, which works anywhere in the country and does not require a technician to install.

## Mobile network

Luxembourg has 100% broadband coverage with 4G or 4G+.

Since 2020, POST Luxembourg has been involved in the installation of 5G. 90% of the country should be covered by 2024.

Luxembourg leads the world in fibre optic coverage. By the end of 2020, fibre could already be offered to more than 72% of households.

✓ *On the POST Luxembourg website, you can check your eligibility for fibre optic by entering your postcode.*

POST Luxembourg does more than just deliver mail. The state-owned company is also a bank and the country's largest telecom operator. It is the first operator to have launched 5G in Luxembourg.

# Culture, leisure and traditions in Luxembourg

# What is the “must see” of Luxembourg’s heritage?

You’ll find plenty of reasons to be interested in **Luxembourg’s history, culture and folklore**, but there’s more. Something that should not be missed under any circumstances: **its countryside**.

Whether you like walking or cycling or not, you can’t miss its landscapes. **5,000 km of marked trails** take you around lakes, through forests, along rocky cliff faces and through picturesque villages and castles.

What are the priorities? There are **3 classified natural parks** and **about fifteen nature reserves**. Visit the **Müllerthal** (also known as Little Switzerland), the vast region of **Esch-sur-Sûre** and the **Haute Sûre lake, Terres Rouges** region or the **Ourdal walk**.

Alternatively, take a **cruise on the Moselle**. You will see the vines that have given the **Luxembourg Crémant** its appellation d’origine contrôlée since 1991.

## The Müllerthal Trail

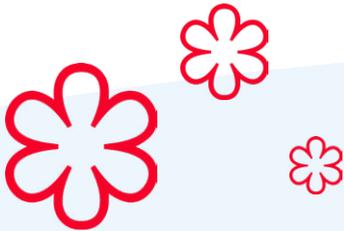

The Luxembourg Little Switzerland hiking trail is **112 km long, with 3 routes and 4 extra routes**. This magnificent trail has been labelled “**Leading Quality Trails - Best of Europe**” since 2014.

## Food and drink

You will see these names on many restaurant menus.

- **Éisleker Ham, also known as Oesling Ham**, is a marinated and smoked ham, often served in thin slices, with chips, salad and fresh bread.
- **Kuddelfleck** can be found on almost every menu. This is a national dish made from tripe or beef stomachs that are cooked, breaded and fried in fat, sometimes with a spicy tomato sauce.
- **Fierkelsjelli** is a piglet in jelly (made from white wine), served cold and usually accompanied by a hard-boiled egg and gherkins.

- **Mousel, Bofferding, Simon and Diekirch** are just a few of the beers on the Luxembourg brewing scene.
- Starting the meal with a **Luxembourg Crémant** is a must...  
... finishing it with a brandy like **Mirabelle** or **Quetsch**, too!
